Unlocking Excellence

A passionate Software Development Manager and Full-Stack Developer with a strong background in software engineering. I thrive on transforming challenges into modern solutions through technology. With hands-on programming expertise, a problem-solving mindset, and leadership skills, I excel at guiding teams, optimizing processes, and driving innovation & operations.

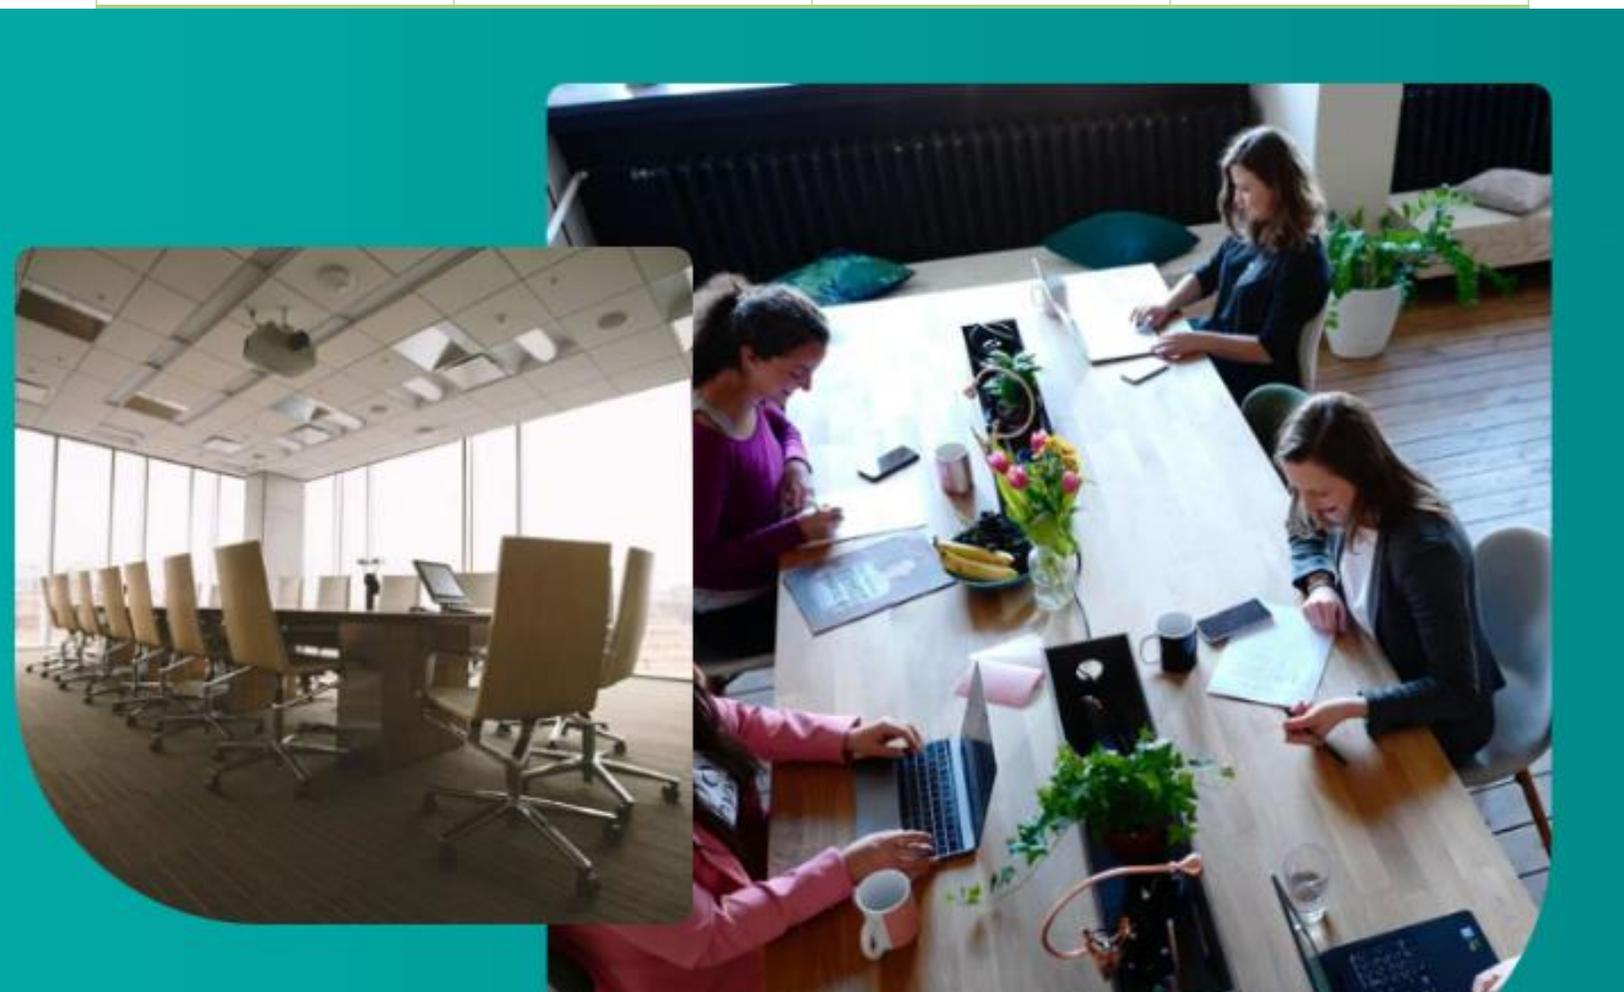

My experience includes research & development, hands on programming, team leadership, project management, API integrations, and cross-team collaboration with Engineering, DevOps, Marketing, Sales, and Client-success teams.

About Me

Hello! I'm **Haris Isani**, an enthusiastic **Web Engineer**—and the kind of person who competes with himself daily to become better than yesterday.

I build fast, scalable, and user-focused web applications. Whether you're starting a new project or improving an existing one, I'm here to deliver real value.
